

# Burning The Midnight Oil Quilts by Heather Finnell

## Checking The size of your Applique shapes:

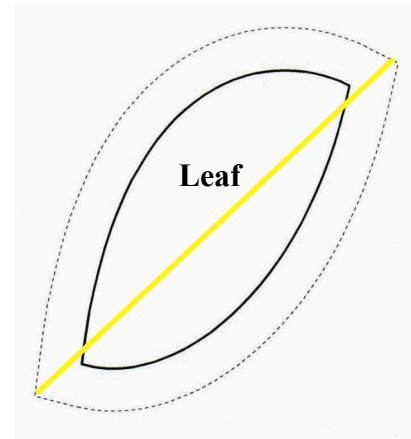

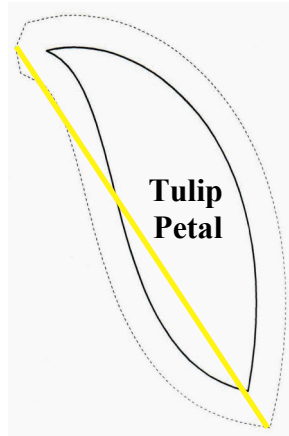

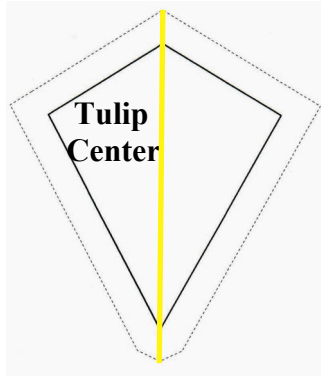

After you have printed out your templates, make sure the are the right size.

**\*\*Applique Templates are not full size. Measure the templates from the pattern\*\***

Leaf: 3"

Tulip Center: 3 1/8 "

Tulip Petal: 3 7/8 "

If they are too small, your printer may be set up to reduce the size of what you are printing. Here's how to check your settings for printing this PDF.

1. Open the PDF.
2. Click on the Printer icon.
3. A box like this should pop up.

4. Check to see what the "Page Scaling" is set for.

5. You want it to say "None". Anything other than that will resize your document and won't print to scale.
